PAPER SUBMISSION AND ACCEPTANCE CRITERIA

*Lingua Montenegrina* publishes primarily the results of original philological and cultural scientific research, as well as preliminary communications and scientific and professional papers. In addition, book reviews are published, as well as reviews of journals and conference proceedings.

Papers are submitted and processed free of charge. The Editorial Board decides on whether the paper is to be accepted for publication and classifies the papers accepted for publication based on the evaluation done by the reviewers. Objectivity of the reviewers’ decision-making is ensured through a double-blind review process, in which the reviewers do not know the identity of the authors and vice-versa.

*Lingua Montenegrina* is published in Montenegrin and other Slavonic languages, as well as in internationally spoken languages (English, German, Russian, French, etc). The following categories of papers are published: original scientific papers, preliminary communications, reviews and professional papers.

Original scientific papers contain unpublished results of original theoretical or practical researches. Their authors must list all the inputs and information in such a manner that the accuracy of the data provided and the analysis carried out may be verified.

Preliminary communications contain the materials or the scientific data that need to be published urgently.

Reviews are critical and analytical overviews of a given field of study or a part thereof. Articles must contain author’s contribution to the study of the selected problem area, while the cited literature must be comprehensive.

Professional papers aim to provide information and introduce a field of study or problem area, while the author does not aspire to conduct a detailed scientific research of the subject matter.

In technical terms, each paper submitted should meet the following criteria: in the upper left corner of a paper, the author’s first and last name shall be stated, as well as his/her affiliation, place of residence, and email address. Titles should be concise and clear. Each paper should contain an abstract of up to 200 words, up to eight key words, well-developed body structure and the list of references.
By submitting the paper for submission in *Lingua Montenegrina*, the authors grant the Editorial Board the right to revise, technically edit and abridge the material submitted.

Manuscripts and CDs shall not be returned.
